February 25, 1957

TO THE STOCKHOLDERS OF GRAHAM-NEWMAN CORPORATION:

Submitted herewith are financial statements of the Corporation covering the fiscal year ended January 31, 1957.

On August 20, 1956 the stockholders voted to dissolve the corporation within one year from that date. Therefore, these figures include the period of liquidation from August 20, 1956 to January 31, 1957.

The appended Balance Sheet indicates a net asset value of \$165.66 per share after deducting the liquidating dividend voted January 28, 1957 and paid on February 11, 1957.

The overall profit for the year exclusive of the provision for liquidation expenses, was \$56.48 per share.

The indicated net asset value on February 15, 1957 after giving effect to the aforementioned dividend, was approximately \$165.70 per share.

The auditor's report sets forth total dividends and dividends per share paid during the fiscal year.

It is anticipated that final distribution in liquidation will be made in accordance with the resolution adopted at the special meeting.

The proxy statement for the Annual Meeting of Stockholders, which will be held on April 8, 1957, will be mailed to the stockholders on or about March 15, 1957.

To the Board of Directors and Stockholders  
of Graham-Newman Corporation:

We have examined the Balance Sheet of Graham-Newman Corporation as at January 31, 1957 and the related statements of Profit and Loss, and Changes in Net Assets for the fiscal year then ended. Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests of the accounting records and such other auditing procedures as we considered necessary in the circumstances.

In our opinion, the accompanying Balance Sheet and related statements of Profit and Loss and Changes in Net Assets, as supplemented by the notes appended thereto, present fairly the financial position of Graham-Newman Corporation as at January 31, 1957 and the results of its operations for the fiscal year then ended, and except for the change noted in Note A-3 of the Notes to Financial Statements in respect of expenses incurred subsequent to August 31, 1956, which change has our approval, in conformity with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

GRAHAM-NEWMAN CORPORATION  
NOTES TO FINANCIAL STATEMENTS  
JANUARY 31, 1957

NOTE A - LIQUIDATION AND DISSOLUTION OF THE CORPORATION

1 - Liquidation and Dissolution

At June 28, 1956 the directors voted to recommend liquidation and dissolution of the corporation, and at a special meeting of stockholders on August 20, 1956 it was voted to liquidate and dissolve the corporation, such liquidation to be completed within twelve months thereafter.

2 - Graham-Newman Corporation Liquidating Trust

At June 28, 1956 certain not readily marketable securities were transferred to Manufacturers Trust Company and Jerome A. Newman, as trustees. The trust was designated as Graham-Newman Corporation Liquidating Trust, and trust certificates were issued to the corporation in exchange for the assets transferred. The total number of certificates received was 5,000 (being the equivalent of one certificate for each share of stock), of which 130 certificates were distributed in connection with the retirement of 130 shares of capital stock (see #4 below) and 4,870 certificates are presently held by the corporation.

3 - Provision for Liquidation Expenses

The management determined to set up a Provision for Liquidation Expenses in the amount of \$50,000 (equivalent to \$10.00 per share), and further, to consider all expenses incurred subsequent to August 31, 1956 as liquidation expenses and chargeable to this Provision. The Provision has accordingly been charged with expenses incurred during the period September 1, 1956 to January 31, 1957 for rent, salaries and other expenses of a character which would ordinarily, in the case of a continuing business, be chargeable to Income, in the aggregate amount of \$26,152.21. At January 31, 1957 the unexpended balance of the Provision was \$21,028.15. Whether this amount is excessive or insufficient is not presently determinable.

4 - Retirement of Stock

Between July 6, 1956 and October 5, 1956, 145 shares of Capital Stock were tendered by stockholders and retired. As part of the amount paid in redemption of 130 shares the retiring stockholders received Graham-Newman Corporation Liquidating Trust certificates on the basis of one certificate for each share tendered.

5 - Liquidating Distributions

Liquidating distributions have been made to January 31, 1957 totalling \$720.62<sup>5</sup> per share (on 4,855 shares outstanding, after providing for the retirement of 145 shares noted hereinabove), as follows:

|   | <u>Per share</u>            | <u>Amount</u>         |

GRAHAM-NEWMAN CORPORATION  
NOTES TO FINANCIAL STATEMENTS

JANUARY 31, 1957

(CONTINUED)

NOTE B - VALUATION OF INVESTMENTS-UNREALIZED APPRECIATION OF INVESTMENTS  
(Continued)

The investment in Graham-Newman Corporation Liquidating Trust certificates has been evaluated on the basis of the net assets in the Trust - securities having been evaluated on the basis of their market values as at January 31, 1957, except for an investment in respect of which the company has a put option exercisable at June 28, 1957, which has been evaluated at its present value as at January 31, 1957 (\$241,951) on the basis of the option price, and an investment for which no market quotation was obtainable which has been evaluated at cost (\$441.00).

NOTE C - COMPENSATION OF OFFICERS

Salaries were paid to the officers during the year as follows: to the chairman of the board \$7,500; to the president \$25,000; to the vice-president (and former treasurer) \$4,166.67 and to his successor as treasurer \$5,000, a total of \$41,666.67, of which \$28,750 was applicable to the period ended August 31, 1956, and has been charged to income, and the balance, viz: \$12,916.67, applicable to the period subsequent to August 31, 1956, has been charged to the provision for liquidation expenses. (see Note A). The salary of the chairman of the board was reduced at April 1, 1956 at his request from \$15,000 to \$12,000 per year, and was terminated, also at his request, at August 31, 1956. The salary of the vice-president (and former treasurer) was terminated, at his request, at March 31, 1956. The salary of his successor as treasurer became effective at April 1, 1956.

Additional compensation is payable to the first three of the above named officers, as a group, of 20% of the excess of the realized net income in each year, as determined at the close thereof (less the net unrealized depreciation, if any, in the value of investments at the year end which had accrued subsequent to January 31, 1948) - over an amount equivalent to \$40.00 per share per annum (\$10.00 per share per quarter) on the outstanding capital stock - such additional compensation, however, being limited (upon a cumulative basis from and after February 1, 1948) to 25% of the excess of dividends paid during this period over the amount of the exclusion above noted. For the purpose of computing this limitation, the "final dividend" in respect of any fiscal year, which is in fact declared and paid subsequent to the close of the year, is considered as having been paid in the prior year. The additional compensation is payable in five equal installments within sixty days after the close of the respective years, but payment of deferred installments may be accelerated at the discretion of the directors.

The balance of accrued and unpaid additional compensation at February 28, 1956 (after payment at February 15, 1956 of the installments then due) for the four fiscal years ended January 31, 1956 was \$396,321.96, which amount will become payable in annual installments in the early part (within 60 days of the close of the respective fiscal years) of 1957 to 1960. Pursuant to resolution of the board of directors at a meeting held June 28, 1956 this amount was on July 9, 1956 deposited with Manufacturers Trust Co. in a special account with instructions to pay to the respective officers (or to their executors, administrators or assigns) on February 1st

NOTE C - COMPENSATION OF OFFICERS (Continued)

of each of these years (1957 to 1960) the amounts which would become payable to them on these dates.

In the event of the death of any officer who was or might be entitled to additional compensation, or upon the termination of his tenure of office, the additional compensation due him was to be determined upon the basis of the value of investments (including unrealized appreciation or depreciation) as at the date of such event.

However, the directors at a meeting held August 21, 1956 determined that, in view of the pending liquidation of the company, the additional compensation accruing from and after February 1, 1956 would in no event be greater than the amount thereof as computed on the basis of the net assets as at August 31, 1956; that no additional compensation would be payable in respect of any subsequent appreciation and that in the event of a subsequent shrinkage in assets upon final liquidation, the amount of additional compensation would be subject to downward revision. The amount of additional compensation upon the basis of August 31, 1956 asset values, and therefore the maximum amount payable in respect of additional compensation accruing from and after February 1, 1956 has been determined at \$143,272.98. This additional compensation (subject to possible downward adjustment as hereinabove noted) will be payable in five equal annual installments, the first of which is to be made at the date of the final liquidating distribution to stockholders.

Of the above amount, \$133,645.32 is applicable to realized net income, and the balance, viz: \$9,627.66, to unrealized appreciation. For the purpose of determining the base upon which the additional compensation applicable to realized net income is computed, deduction has been taken from income of the amount set up as provision for liquidation expenses (\$50,000).

NOTE D - TAX STATUS

The corporation has elected to be taxed as a "regulated investment company" under the internal revenue code, and as such will be liable for Federal income taxes only on the amount of its undistributed net long term capital gain (less its net short term capital loss, if any) and its undistributed net income from other sources. The corporation has during the year made liquidating distributions, and will likewise in the future make further liquidating distributions, in an amount which will absorb the total net income reportable for Federal tax purposes in each of the above categories. No provision has therefore been made for Federal income tax, either in respect of the realized net income for the year or in respect of unrealized appreciation at the close thereof.

TO THE STOCKHOLDERS OF GRAHAM-NEWMAN CORPORATION:

Submitted herewith are financial statements of the Corporation covering the fiscal year ended January 31, 1957.

On August 20, 1956 the stockholders voted to dissolve the corporation within one year from that date. Therefore, these figures include the period of liquidation from August 20, 1956 to January 31, 1957.

The appended Balance Sheet indicates a net asset value of \$165.66 per share after deducting the liquidating dividend voted January 28, 1957 and paid on February 11, 1957.

The overall profit for the year exclusive of the provision for liquidation expenses, was \$56.48 per share.

The indicated net asset value on February 15, 1957 after giving effect to the aforementioned dividend, was approximately \$165.70 per share.

The auditor's report sets forth total dividends and dividends per share paid during the fiscal year.

It is anticipated that final distribution in liquidation will be made in accordance with the resolution adopted at the special meeting.

The proxy statement for the Annual Meeting of Stockholders, which will be held on April 8, 1957, will be mailed to the stockholders on or about March 15, 1957.

To the Board of Directors and Stockholders  
of Graham-Newman Corporation:

We have examined the Balance Sheet of Graham-Newman Corporation as at January 31, 1957 and the related statements of Profit and Loss, and Changes in Net Assets for the fiscal year then ended. Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests of the accounting records and such other auditing procedures as we considered necessary in the circumstances.

In our opinion, the accompanying Balance Sheet and related statements of Profit and Loss and Changes in Net Assets, as supplemented by the notes appended thereto, present fairly the financial position of Graham-Newman Corporation as at January 31, 1957 and the results of its operations for the fiscal year then ended, and except for the change noted in Note A-3 of the Notes to Financial Statements in respect of expenses incurred subsequent to August 31, 1956, which change has our approval, in conformity with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

GRAHAM-NEWMAN CORPORATION  
NOTES TO FINANCIAL STATEMENTS  
JANUARY 31, 1957

NOTE A - LIQUIDATION AND DISSOLUTION OF THE CORPORATION

1 - Liquidation and Dissolution

At June 28, 1956 the directors voted to recommend liquidation and dissolution of the corporation, and at a special meeting of stockholders on August 20, 1956 it was voted to liquidate and dissolve the corporation, such liquidation to be completed within twelve months thereafter.

2 - Graham-Newman Corporation Liquidating Trust

At June 28, 1956 certain not readily marketable securities were transferred to Manufacturers Trust Company and Jerome A. Newman, as trustees. The trust was designated as Graham-Newman Corporation Liquidating Trust, and trust certificates were issued to the corporation in exchange for the assets transferred. The total number of certificates received was 5,000 (being the equivalent of one certificate for each share of stock), of which 130 certificates were distributed in connection with the retirement of 130 shares of capital stock (see #4 below) and 4,870 certificates are presently held by the corporation.

3 - Provision for Liquidation Expenses

The management determined to set up a Provision for Liquidation Expenses in the amount of \$50,000 (equivalent to \$10.00 per share), and further, to consider all expenses incurred subsequent to August 31, 1956 as liquidation expenses and chargeable to this Provision. The Provision has accordingly been charged with expenses incurred during the period September 1, 1956 to January 31, 1957 for rent, salaries and other expenses of a character which would ordinarily, in the case of a continuing business, be chargeable to Income, in the aggregate amount of \$26,152.21. At January 31, 1957 the unexpended balance of the Provision was \$21,028.15. Whether this amount is excessive or insufficient is not presently determinable.

4 - Retirement of Stock

Between July 6, 1956 and October 5, 1956, 145 shares of Capital Stock were tendered by stockholders and retired. As part of the amount paid in redemption of 130 shares the retiring stockholders received Graham-Newman Corporation Liquidating Trust certificates on the basis of one certificate for each share tendered.

5 - Liquidating Distributions

Liquidating distributions have been made to January 31, 1957 totalling \$720.62<sup>5</sup> per share (on 4,855 shares outstanding, after providing for the retirement of 145 shares noted hereinabove), as follows:

|   | <u>Per share</u>            | <u>Amount</u>         |

NOTES TO FINANCIAL STATEMENTS

JANUARY 31, 1957

(CONTINUED)

NOTE B - VALUATION OF INVESTMENTS-UNREALIZED APPRECIATION OF INVESTMENTS  
(Continued)

The investment in Graham-Newman Corporation Liquidating Trust certificates has been evaluated on the basis of the net assets in the Trust - securities having been evaluated on the basis of their market values as at January 31, 1957, except for an investment in respect of which the company has a put option exercisable at June 28, 1957, which has been evaluated at its present value as at January 31, 1957 (\$241,951) on the basis of the option price, and an investment for which no market quotation was obtainable which has been evaluated at cost (\$441.00).

NOTE C - COMPENSATION OF OFFICERS

Salaries were paid to the officers during the year as follows: to the chairman of the board \$7,500; to the president \$25,000; to the vice-president (and former treasurer) \$4,166.67 and to his successor as treasurer \$5,000, a total of \$41,666.67, of which \$28,750 was applicable to the period ended August 31, 1956, and has been charged to income, and the balance, viz: \$12,916.67, applicable to the period subsequent to August 31, 1956, has been charged to the provision for liquidation expenses. (see Note A). The salary of the chairman of the board was reduced at April 1, 1956 at his request from \$15,000 to \$12,000 per year, and was terminated, also at his request, at August 31, 1956. The salary of the vice-president (and former treasurer) was terminated, at his request, at March 31, 1956. The salary of his successor as treasurer became effective at April 1, 1956.

Additional compensation is payable to the first three of the above named officers, as a group, of 20% of the excess of the realized net income in each year, as determined at the close thereof (less the net unrealized depreciation, if any, in the value of investments at the year end which had accrued subsequent to January 31, 1948) - over an amount equivalent to \$40.00 per share per annum (\$10.00 per share per quarter) on the outstanding capital stock - such additional compensation, however, being limited (upon a cumulative basis from and after February 1, 1948) to 25% of the excess of dividends paid during this period over the amount of the exclusion above noted. For the purpose of computing this limitation, the "final dividend" in respect of any fiscal year, which is in fact declared and paid subsequent to the close of the year, is considered as having been paid in the prior year. The additional compensation is payable in five equal installments within sixty days after the close of the respective years, but payment of deferred installments may be accelerated at the discretion of the directors.

The balance of accrued and unpaid additional compensation at February 28, 1956 (after payment at February 15, 1956 of the installments then due) for the four fiscal years ended January 31, 1956 was \$396,321.96, which amount will become payable in annual installments in the early part (within 60 days of the close of the respective fiscal years) of 1957 to 1960. Pursuant to resolution of the board of directors at a meeting held June 28, 1956 this amount was on July 9, 1956 deposited with Manufacturers Trust Co. in a special account with instructions to pay to the respective officers (or to their executors, administrators or assigns) on February 1st

GRAHAM-NEWMAN CORPORATION

JANUARY 31, 1957

NOTE C - COMPENSATION OF OFFICERS (Continued)

of each of these years (1957 to 1960) the amounts which would become payable to them on these dates.

In the event of the death of any officer who was or might be entitled to additional compensation, or upon the termination of his tenure of office, the additional compensation due him was to be determined upon the basis of the value of investments (including unrealized appreciation or depreciation) as at the date of such event.

However, the directors at a meeting held August 21, 1956 determined that, in view of the pending liquidation of the company, the additional compensation accruing from and after February 1, 1956 would in no event be greater than the amount thereof as computed on the basis of the net assets as at August 31, 1956; that no additional compensation would be payable in respect of any subsequent appreciation and that in the event of a subsequent shrinkage in assets upon final liquidation, the amount of additional compensation would be subject to downward revision. The amount of additional compensation upon the basis of August 31, 1956 asset values, and therefore the maximum amount payable in respect of additional compensation accruing from and after February 1, 1956 has been determined at \$143,272.98. This additional compensation (subject to possible downward adjustment as hereinabove noted) will be payable in five equal annual installments, the first of which is to be made at the date of the final liquidating distribution to stockholders.

Of the above amount, \$133,645.32 is applicable to realized net income, and the balance, viz: \$9,627.66, to unrealized appreciation. For the purpose of determining the base upon which the additional compensation applicable to realized net income is computed, deduction has been taken from income of the amount set up as provision for liquidation expenses (\$50,000).

NOTE D - TAX STATUS

The corporation has elected to be taxed as a "regulated investment company" under the internal revenue code, and as such will be liable for Federal income taxes only on the amount of its undistributed net long term capital gain (less its net short term capital loss, if any) and its undistributed net income from other sources. The corporation has during the year made liquidating distributions, and will likewise in the future make further liquidating distributions, in an amount which will absorb the total net income reportable for Federal tax purposes in each of the above categories. No provision has therefore been made for Federal income tax, either in respect of the realized net income for the year or in respect of unrealized appreciation at the close thereof.
