“**Canada Yield Price**” means a price equal to the price of the Series 3 Notes (or the portion thereof to be redeemed) calculated to provide a yield to maturity, equal to the sum of the Government of Canada Yield calculated at 10:00 a.m. (Toronto time) on the third Business Day preceding the date fixed for redemption, plus the Applicable Spread.

“**Government of Canada Yield**” means, on any date, with respect to any Series 3 Notes, the yield to maturity on such date, compounded semi-annually, which an assumed new issue of non-callable Government of Canada bonds denominated in Canada dollars would carry if issued in Canada at 100% of its principal amount on such date, with a term to maturity as nearly as possible equal to the remaining term to maturity of such Series 3 Notes. The Government of Canada Yield will be the average (rounded to four decimal points) of the bid-side yields provided by two of the Investment Dealers in accordance with the terms of the Indenture.

“**Applicable Spread**” means 28 basis points.

Credit Ratings:

The Series 3 Notes have been given a rating of BBB(high) with a Stable trend by Dominion Bond Rating Service Limited (“**DBRS**”), a rating of BBB with a Stable outlook by Standard & Poor’s Rating Services, a division of The McGraw-Hill Companies Corporation, Inc. (“**S&P**”) and a rating of BBB with a Stable outlook by Fitch Ratings Ltd. (“**Fitch**”).

The “BBB” rating category is the fourth highest used by DBRS, denotes “adequate credit quality” and is one of the ten rating categories used by DBRS for long-term debt obligations. In addition, “(low)” and “(high)” designations indicate relative strength within the respective rating categories. Protection of interest and principal is considered acceptable, but the entity is fairly susceptible to adverse changes in financial and economic conditions, or there may be other adverse conditions present which reduce the strength of the entity and its rated securities.

The “BBB” rating category is the fourth highest used by S&P, denotes “adequate protection parameters” and is one of the ten rating categories used by S&P for long-term debt obligations. In addition, the plus and minus designations indicate relative strength within the respective rating categories. However, adverse economic conditions or changing circumstances are more likely to lead to a weakened capacity of the obligor to meet its financial commitment on the obligation.

The “BBB” rating category is the fourth highest used by Fitch, denotes “good credit quality” and is one of the 11 rating categories used by Fitch for long-term debt obligations. In addition, the plus and minus designations indicate relative strength within the respective rating categories. “BBB” ratings indicate that there are currently expectations of low credit risk. The capacity for payment of financial commitments is considered adequate, but adverse changes in circumstances or in economic conditions are more likely to impair this capacity.

Credit ratings are intended to provide investors with an independent assessment of the credit quality of an issue or issuer of securities and do not speak to the suitability of particular securities for any particular investor. The credit ratings assigned to the Series 3 Notes may not reflect the potential impact of all risks on the value of the Series 3 Notes. A rating is therefore not a recommendation to buy, sell or hold securities and may be subject to revision or withdrawal at any time by the rating agency. Prospective investors should consult the relevant rating organization with respect to the interpretation and implications of the ratings.

CANADIAN FEDERAL INCOME TAX CONSIDERATIONS

In the opinion of Torys LLP, counsel to the Company, and McCarthy Tétrault LLP, counsel to the Agents, the following is, at the date hereof, a summary of the principal Canadian federal income tax considerations generally applicable to a holder of the Series 3 Notes (a “**Holder**”) who acquires Series 3 Notes pursuant to this Pricing Supplement and who, at all relevant times, for purposes of the *Income Tax Act* (Canada) (the “**Tax Act**”), is resident in Canada, holds the Series 3 Notes as capital property and deals with the Company at arm’s length and is not affiliated with the Company. Generally, the Series 3 Notes will be considered capital property to a Holder provided that the Holder does not hold the Series 3 Notes in the course of carrying on a business of buying and selling securities and has not acquired them in one or more transactions considered to be an adventure in the nature of trade. Certain Holders who are resident in Canada whose Series 3 Notes might not otherwise qualify as capital property may be entitled to obtain such qualification in certain circumstances by making an irrevocable election permitted by subsection 39(4) of the Tax Act.

This summary is not applicable to a Holder that is a “financial institution” (as defined in the Tax Act for purposes of the mark-to-market rules) or a Holder an interest in which is a “tax shelter investment” (all as defined in the Tax Act). Such Holders should consult their own tax advisors having regard to their particular circumstances.

This summary is based upon the facts set out in the Prospectus and this Pricing Supplement, the current provisions of the Tax Act and the regulations thereunder in force at the date of this Pricing Supplement, all specific proposals to amend the Tax Act and the regulations thereunder publicly announced by or on behalf of the Minister of Finance (Canada) prior to the date hereof and counsel’s understanding of the current administrative policies or assessment practices published in writing by the Canada Revenue Agency (the “**CRA**”). There can be no assurance that the proposed amendments will be implemented in their current form or at all. This summary does not otherwise take into account or anticipate any changes of law or practice, whether by judicial, governmental or legislative decision or action or changes in the administrative policies or assessment practices of the CRA, nor does it take into account tax legislation or considerations of any province, territory or foreign jurisdiction. The provisions of provincial income tax legislation vary from province to province in Canada and in some cases differ from federal income tax legislation.

This summary is of a general nature only and is not intended to be, nor should it be construed to be, legal or tax advice to any particular Holder, and no representations with respect to the income tax consequences to any particular Holder are made. Accordingly, prospective purchasers should consult their own tax advisors for advice with respect to the tax consequences to them of acquiring, holding and disposing of the Series 3 Notes, including the application and effect of the income and other tax laws of any country, province, territory, state or local tax authority.

Interest

A Holder that is a corporation, partnership, unit trust or trust of which a corporation or partnership is a beneficiary will be required to include in computing its income for a taxation year any interest on a Series 3 Note that accrues or is deemed to accrue to the Holder to the end of that taxation year or becomes receivable or is received by the Holder before the end of that taxation year, except to the extent that such interest was otherwise included in the Holder’s income for a preceding taxation year.

Any other Holder, including an individual and trusts of which neither a corporation or a partnership is a beneficiary, will be required to include in income for a taxation year any interest on a Series 3 Note received or receivable by such Holder in that year (depending upon the method regularly followed by the Holder in computing income), except to the extent that the interest was included in the Holder's income for a preceding taxation year.

Any premium paid by the Company to a Holder because of the redemption by it of a Series 3 Note before maturity thereof will generally be deemed to be interest received at that time by the Holder to the extent that such premium can reasonably be considered to relate to, and does not exceed the value at the time of the redemption of, the interest that would have been paid or payable by the Company on the Series 3 Note for a taxation year ending after the redemption.

Disposition

On a disposition or deemed disposition of a Series 3 Note, whether on redemption, purchase for cancellation or otherwise, a Holder will generally be required to include in income the amount of interest accrued or deemed to accrue on the Series 3 Note from the date of the last interest payment to the date of disposition to the extent that such amount has not otherwise been included in the Holder's income for the taxation year or a previous taxation year. In general, a disposition or deemed disposition of a Series 3 Note will give rise to a capital gain (or capital loss) to the extent that the proceeds of disposition, net of any accrued interest and any other amount included in computing income and any reasonable costs of disposition, exceed (or are less than) the adjusted cost base of the Series 3 Note to the Holder immediately before the disposition.

One-half of the amount of any capital gain (a "**taxable capital gain**") realized by a Holder in a taxation year generally must be included in the Holder's income for that year, and one-half of the amount of any capital loss (an "**allowable capital loss**") realized by a Holder in a taxation year may generally be deducted from taxable capital gains realized by the Holder in that year. Allowable capital losses in excess of taxable capital gains may be carried back and deducted in any of the three preceding taxation years or carried forward and deducted in any subsequent taxation year against net taxable capital gains realized in such years to the extent and under the circumstances described in the Tax Act.

A Holder that is a "Canadian controlled private corporation" (as defined in the Tax Act) may be liable to pay an additional refundable tax of 6 2/3% on certain investment income, including amounts of interest and taxable capital gains.
